Nikko Investor Relations Co., Ltd. provides "All Japanese Listed Companies' Website Ranking 2022" by surveying websites of all 3,926 listed companies based on the objective evaluation items set from the three perspectives of "ease of understanding," "ease of use," and "abundance of information."

We renewed our website in April 2016 so that our domestic and overseas shareholders, investors and stakeholders can use it more easily and comfortably.

We will continue to appropriately disclose corporate information necessary for investment decisions through our website and other means. We will also actively disseminate IR and sustainability information and strive to continuously deepen relationships of trust with stakeholders through proactive communication.
